

MISSOURI DEPARTMENT OF REVENUE
DRIVER AND VEHICLE SERVICES BUREAU
**ODOMETER DISCLOSURE
STATEMENT**

FORM
3019
(REV. 9-03)

Federal law (and State law, if applicable) requires that you state the mileage upon transfer of ownership. Failing to complete or providing a false statement may result in fines and/or imprisonment.

INSTRUCTIONS ON REVERSE

YEAR	MAKE	VEHICLE IDENTIFICATION NUMBER	
TITLE NUMBER	STATE	MODEL	BODY STYLE

If purchaser/seller is an agent/officer of a firm, record official position after printed name. The purchaser/seller should retain a copy of this odometer disclosure statement. If "Warning, Odometer Discrepancy" is checked, the seller must attach a statement explaining all facts regarding the discrepancy.

When a certificate of title or a manufacturer's statement of origin does not meet the federal requirements for a proper odometer disclosure, a separate odometer disclosure statement must be issued by the seller and attached to the certificate of ownership at the time of transfer of a motor vehicle.

The following vehicles are exempt from the odometer requirements:

1. Any motor vehicle that is ten years old or older;
2. Any motor vehicle having a gross vehicle weight rating of more than 16,000 pounds; and
3. Any new motor vehicle transferred from one franchise dealer to another.

If the Missouri title was issued after August 28, 1989, the odometer disclosure is required to be completed on the back of the title rather than on a separate disclosure statement.

COMPLETING THE ODOMETER DISCLOSURE STATEMENT

1. All information on the disclosure statement can be typed or computer generated except for the printed names and signatures of the buyers and sellers.
2. One purchaser and one seller must sign the form.
3. One purchaser and one seller must hand-print their name.
4. The seller must state the exact mileage as listed on the odometer at the time of transfer, excluding tenths. If there is a discrepancy in the number of miles shown, one of the mileage blocks must be checked:

Mileage in Excess of Mechanical Limits - If the actual mileage of the vehicle is 125,000 but only 25,000 is shown on the odometer, the seller must insert 25,000 in the odometer reading area and check the box stating Mileage in Excess of Mechanical Limits.

Mileage Reading Is Not Actual - If the true mileage is different from the mileage shown on the odometer or the true mileage is unknown, the seller must submit a statement explaining all facts concerning the true mileage versus the mileage shown on the odometer.

MAKING CORRECTIONS ON ODOMETER DISCLOSURE STATEMENTS

If an error should occur when completing the second, third or fourth odometer disclosure space on the Odometer Disclosure Statement, the seller should:

1. Draw a large "X" in that disclosure space;
2. Make the correct disclosure in the next disclosure space;
3. Ensure that the purchaser and seller complete and sign a statement explaining the error and attach it to the odometer disclosure statement.

NOTE: Both documents must accompany the application for title.

If the error is made while completing the fourth disclosure space, a new odometer disclosure statement should be attached to the original disclosure statement, accompanied by the statement explaining the error.
